COOLING PERIOD PASTOR'S PLAN FOR DIVORCE SEEKERS

Would Give Separated Couples Time to Bellow ... and Prevent Hasty Remarriages

Atlantic City N J July 16 Several of the pastors and leading citizens of this city have taken up suggestions made by the Rev J Leonard Levy of Pittsburg, of having a cooling period of three months from the time of the final hearing in divorce suits until ultimate decision is handed down by the courts Dr Levy says The reduction I believe in the separations between married couples would be startling," he declared Let the concluding chapters of a suit for divorce be held for a quarter of a year from the day of the completion of the trial making it conditional upon the impossibility of a reconciliation

This cooling period might thus elapse during which neither of the divorced persons could remarry This might not serve to restore the former relations but would surely save us the shock of our moral sensibilities caused by the announcements such as divorced and married in one hour Another thing that should be advocated is uniform Federal marriage and divorce law

The hasty marriage must be curtailed if the rate of divorce is to disappear A rabbi should demand at least twenty days notice before performing a ceremony

Great as the divorce evil is there can be a still greater evil in domestic life the impossibility of obtaining a divorce in spite of legal ground When domestic conditions are immoral husbands and wives should be legally put asunder Nothing can be more debasing to innocent children than to be reared in a home in the presence of parents who have lost all respect for each other

NO AUTOMOBILE LICENSE; WARRANTS HAVE BEEN ISSUED

Number of Dothan Citizens Hadn't Complied With the Law and Back Tax Commissioner Fiscally Has Warrant Issued Before Judge Wood Some Have Escaped But they Are Expected Later

It has been a pretty general custom in this part of the state as well as it has all over the state to pay the automobile license tax under protest Many haven't even protested but just didn't pay ... during last year that not over half of the automobile owners paid their license tax This year there are many in this county who haven't paid ... Back Tax Commissioner ... has had warrants issued for ten who haven't paid and Justice Wood ... them before him Some of the numbers said checks had been sent for the tax while others paid without a kick and still others ... their cases

Justice of the Peace Wood says that he understands that there are still many who have not paid and who have not yet been served with warrants Probably this will serve to bring them out The man who has paid will watch other cars to see if they are wearing tags

MOVEMENT ON FOOT TO START MORNING DAILY HERE IN DOTHAN

L. G. Biggers Is Circulating List, Asking For $1,000 Subscriptions. Probably Is One Method of Bringing The Town From It's "Lethargic Sleep."

L G Biggers who has been using a good deal of Eagle space recently to talk about various and sundry things is out with a list asking for $1 000 subscriptions from the business men of Dothan to start a morning daily paper

The proper amount of energy money and work will make a good paper for Dothan and Mr Biggers has plenty of energy

Recently he has written several articles for The Eagle and some of them were not what this paper thought good for the town or community They had a pessimistic air that the present management has always tried to keep out of the paper

But there may be people who think it better to publish these things The Eagle does not

Should a sufficient fund be raised to launch a morning daily the promoters need not go out of town for the equipment The Eagle will sell out and leave the field to any who has the money to invest in a news paper property It is some ... and costs some money to start a new paper and by buying one already established a good deal of expense will be saved

However if the merchants and business men of Dothan need another medium in order to put their advertising before the buying public then this paper would not throw cold water on a business enterprise If political factions and creeds can not get their stuff in The Eagle then there still may be excuse for another paper a morning paper

At the same time The Eagle thoroughly understands that a defendant's testimony in court amounts to but little with the jury He is the interested party The ... being ... only daily paper in the city the public would necessarily expect it to welcome the venture with some degree of coldness

Two attempts to run daily papers here have not panned out successfully in the past but who knows but that the third one would be just what the people want?

It takes a good deal of money to put in a plant to print a respectable daily paper and two plants in a city of Dothan's size might run successfully and then dividends might come at infrequent periods unless dividends were paid in a political way through the paper Therefore we offer the suggestion that it might be best for the promoters to buy a paper which has in a way overcome some of the difficulties encountered by the establishment of the new one

At the same time The Eagle can not see its faults as others see them but it has tried to be arbitrary It has tried to open its columns to all sides and factions realizing that it would be unfair to its readers to do less but the editorial policy of the paper has never been uncertain

But if the new paper must be organized we only hope that men will be placed at the head of it who will pull with The Eagle to make Dothan and this section of the wiregrass a prosperous section and a good place to live as The Eagle has always tried to do

U. S. TREASURY IS LARGEST OF WORLD'S BANKS

During Fiscal Year Ending June 30 More Than Ten Billions Were Handled

Washington July 16 Actual cash to the extent of $7 071 520 000 was handled by the United States treasury in the fiscal year ending June 30 This breaks all previous records stamping the treasury the officials declare as the greatest banking institution in the world

This amount exceeds the cash transactions during the previous year by nearly five hundred million dollars It equals nearly twice as much as the total stock of money in the United States Including bonds checks and warrants the treasury handled over ten billions during the year.

WILSON CALLED BACK FROM MEXICO FOR A CONFERENCE

Generally Believed Ambassador Will Not Be Returned to Mexico

Washington July 16 Commenting upon the announcement earlier in the day that Ambassador Henry Lane Wilson had been summoned from Mexico City to confer with President Wilson regarding the situation in Mexico, Secretary Bryan said tonight this step had been in contemplation for sometime

He refused to discuss a suggestion that this statement indicated the Ambassador's recall was not brought about by the action of the diplomatic body in Mexico City in formulating a joint complaint against the attitude of the United States toward the Huerta Government

The secretary would not confirm or deny reports of the meeting of foreign representatives in Mexico

There is much speculation in official circles regarding Ambassador Wilson's future, for it is generally believed his return to the Mexican capital is by no means certain Mr Wilson was thrown into close association with General Huerta in the days preceding the overthrow of Madero and immediately afterwards One of the first official communication to the State Department after the coup d'etat resulting in the death of Madero and Suarez suggested that he be authorized to extend the formal recognition of the United States to the new government

President Wilson recently has received a number of reports from individual Americans not connected with State department upon Mexican conditions so that he will be prepared to take up the discussion with the Ambassador with considerable personal knowledge on the subject

If the President should conclude

"GEORGIA PEACH" GETS SUSPENSION

Uses Rough House Tactics With Umps Hildebrand and is Benched

Detroit Mich July 16 — As a result of his dispute with Umpire Hildebrand during the Philadelphia-Detroit game Monday afternoon, Ty Cobb star outfielder and champion batsman, has been suspended by the head of the American league The notice of suspension was received by Manager Jennings just before time for starting yesterday's game It came in the form of a telegram dated Chicago and reading as follows

"This is to notify you of Cobb's suspension for language used to Hildebrand in Monday's game
(Signed) B JOHNSON"

The dispute between player and umpire occurred in the ninth inning of Monday's game Baker, the athletic third baseman, hit a liner to short centerfield Cobb raced in and apparently caught the ball a few inches from the ground but Hildebrand ruled that the fielder had trapped it Cobb was insistent and the umpire ordered him from the game

MAN IS FOUND GUILTY BUT IS GIVEN FREEDOM

"We are Going to Give You Another "Chance," Jury Tells Him.

Kansas City, July 16 —A jury in the criminal court here today acquitted Mun F McNeill, charged with second degree murder although the twelve men, according to the foreman, were satisfied of the prisoner's guilt

McNeill was charged with shooting Lee Self to death in a quarrel at a cancan party When the jury came in and anounced a verdict had been reached, Foreman Arthur Brown asked permission to speak to the prisoner

"McNeill said Brown, "we are all satisfied that you are guilty, but we are going to give you a chance We want you to go home and make a man of yourself Your mother is getting old and needs you You are to cut out the bad Don't you think you can make a man of yourself?"

"Yes, said McNeill faintly

The verdict of acquittal was then handed to the court while McNeill's gray haired mother wept aloud

Thursday, July 17 [illegible]

You can see through some of the moving picture actresses now.

Don't blame David Lamar. [illegible] takes his kind to teach us that Wall Street is a easy street.

Senator Bacon of Georgia was elected easier the other day than he has ever been before or than he will ever be again.

A news item says that James Dorden of England by his own request has been buried by the side of his dog. The article doesn't state, but we suppose he is dead.

One Chicago preacher had the nerve to walk out and preach a sermon in his church dressed in white instead of the long black coat. He said he thought he could do better, comfortably clothed.

For stealing an overcoat when the thermometer registered over 100, an Indiana judge sentenced a man to jail for 80 days. He should have included in the sentence the wearing of the coat during the time.

We predicted when those girls of President Wilson had all their pictures made together, that they were posing about the last time as unmarried daughters. There are two others and they may marry off before their father decides to leave Washington.

It won't be necessary to get up much of a fight to move the county jail to another location, because if the job is delayed much longer, prisoners will tear it down in their mad attempt to get out, and all that will be necessary would be to remove the rubbish and bats.

We don't suppose Government ownership of railroads would be popular. Georgia has a junk of a road, or one that was once junk, but now it has got to be a good piece of property, and the politicians are saying more about that road than they are the school teachers who are a year behind with their pay.

Although the harvest is not yet well under way there is a scarcity of labor in the country in this section. In the city contractors are having a hard time to get enough labor to carry on construction work. This in spite of the fact that Wilson is President.—Gadsden Journal.

The new Paris skirt has at last been described over here. It is nothing but a flimsy piece of gauze under which is worn tights—and nothing else. Once again we urge the farmers in this section to engage extensively in fig culture.—Waycross (Ga.) Herald.

WARMING UP

People go wild and lose their heads when the campaign warms up. They do more for their friends than their friends should expect of them.

They say things that are unnecessary, which they regret when they cool off.

This is a good time to let the candidates manage their own race. Let the people keep an eye on the whole bunch and do their picking at the proper time. Meantime, let every one attend to the business in hand. The state wouldn't go to the dogs matters not who is elected. We're tired that.

The weather is too warm to warm up over politics yet.

You get out and tear a comparatively new shirt for your man and he has hundreds of other people doing the same thing, and when you finally land him, he himself has changed a good deal. He is apt to think it was his own personal popu[illegible]larity that did it and not what you as an individual did.

POINTED PARAGRAPHS

From the Chicago News

Money may make the mare go but driving a stubborn mule down the pike is different.

The woman who does her own housework has the servant girl problem solved.

Many a girl might be proud of her ankles if it wasn't for her feet.

Love is the bread of life to a woman, to a man it is merely cake.

The best a man can do is to guess at the age of women and [illegible] goods.

Fortunate is the man who can find out things without butting in.

It's always too early to rip, but never too late to mend.

EVER CHANGING.

You can say whatever you want to about the dresses ladies wear, but if the dresses suit the ladies the ladies are going to wear them. It doesn't matter how they look.

Some of us were foolish enough to think the hobble skirt wouldn't amount to much in this climate, but they were on the street before an extra could be issued.

Now they are talking of putting out something fresh from [illegible] where they all come from that hasn't a button or a hook to it. It will fasten with a horse blanket pin or a safety pin, and is wrapped around a few times.

But while the styles in dress are changing so we are bound to get something good from them. Many of the girls are wearing, [illegible] heel shoes and they don't care how broad they look across the bottom either. You probably had noticed how much easier they walked [illegible] such a show. The average woman walks like her corns hurt [illegible] makes us feel an [illegible] does in climbing stairs, but the down to where they will [illegible] new shoes without heels [illegible] grateful.

WHO'LL BE THE FIRST?

Three or four miles from the city on the Ashford road is a crossing that we will hear from later. It is where the graded road and the Seaboard cross. The road crew [illegible] such a perfect crossing that it will lead to trouble. The auto [illegible] will get tired after a while, [illegible] up for that crossing, [illegible] train and will [illegible] Some one is going to take a chance [illegible] many and [illegible] a train there and [illegible] that trains are not [illegible] as the automobile is [illegible] occupants of a motor car haven't much of a showing when thrown against a moving [illegible] long with a big rail [illegible] a fast passenger train.

[illegible] such as [illegible] road [illegible] railroad track [illegible] just at the particular time the train is trying to cross the dirt road. Doctors and an ambulance are called for when the crossing is [illegible]

Of course our autos got across the road a thousand times [illegible] never [illegible] they make it a thousand [illegible] times that may prove too many.

We predict that trouble is coming from that crossing. A fast moving automobile makes enough fuss to prevent the driver from hearing the locomotive whistle, and it is expecting too much to say that the engineer should slow up and blow for the crossing as he does when crossing another railroad track.

KISSING SOOTHES NERVES FAR FROM BEING HARMFUL DECLARES GERMAN DOCTOR

Berlin, July 16. — In a long, interesting and carefully prepared monograph printed in a local publication today Prof. Adolph Paskau of Breslau strongly champions osculation. Far from being harmful, says the noted savant, kissing may soothe the nerves and have a really beneficial effect physiologically. This idea ... the article is based on ... the doctor ... experiments ... doesn't say if the experiments ... personal ones ... Humanity has survived kissing for thousands of years, the article continues, and it will survive, says more, ten thousand if the world lasts that long. It is doubtful if anyone ever contracted tuberculosis through kissing, at least not in Germany.

HOW THE PRESIDENT GETS PAY

From the Outlander.

The question is often asked how the President gets his salary. ... he goes to the Treasury at the end of each week ... and draws his 210 odd dollars ... waits till the end ... or term for his money ... is that ... from the Treasury ... only Government official who is thus paid. And his pay days are once a month — on the last working day of the month. President Wilson had to wait till March ... for his first taste of Uncle Sam's money. Then he got an accountant's warrant for $... This was issued to cover the portion of the whole month beginning with March 4, counting the month as 30 days. Actually he did not take office until afternoon of the 4th and President Taft held down the job until that hour. But this was by a fiction. The administration is supposed to end with midnight of March 3, but it would be inconvenient to transfer the Government at such a time and so the change is made ... hours later. No fractions of days are ... however in paying President ... the half day President Taft ... not get paid for on March 4 was made up by the extra half day he was paid for at the beginning of his term.

President Wilson's ... will ... rants hereafter will be $... just one twelfth of his full annual salary of $75,000. Senators Representatives and other Government officials are paid by a slightly different system. The Vice President is paid by the Secretary of the Senate who also pays the Senators and Senate employes. His salary is $12,000 but ... on the thousand a month ... salary ... first divided into ... pay ... $1,000 each for each ... the quarterly amount is then again divided into monthly pays according to the actual number of calendar days in that quarter.

By a singular custom which has started in Washington ... which ... persons has ... to be paid the first of the ... is what is called a monthly warrant. That is he is allowed to draw his money ... which ... is not certified with his ... until the end of the ... the ... trifle ... the ... upon which ... (?)

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C. — I suffered for three summers, writes Mrs. Walter Vincent of this town, and the third and last time, was my worst.

I had dreadful nervous headaches and prostration and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak sinking spells would come on me I would have to give up and lie down until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui the woman's tonic, and I firmly believe I would have died if I hadn't taken it.

After I began taking Cardui I was greatly helped and all three bottles relieved me entirely.

I fattened up and grew so much stronger in three months I felt like another person altogether.

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild tonic effect on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system and helps to make pale, sallow cheeks fresh and rosy.

Cardui has helped more than a million weak women during the past 50 years. It will surely do for you what it has done for them. Try Cardui today.

I tread my days
I know that all the threads will run
Appointed ways
I now each day will bring its [illegible]
And being blind no more I ask
I do not know the use or name
Of that I spin,
I only know that some one came
And laid within
My hand the thread and still
Since you
Are blind but one thing you can do
Sometimes the threads so [illegible]
and fast
And tangled fly
I know wild storms are sweeping past,
And fear that I
Shall fall but dare not try to find
A safer place since I am blind
